

**Enjoy  
The  
Convenience**

Dragging out the movie screen and projector is no way to enjoy your family's movie, slide, and photo memories. Forget the hassle and the frustration of threading brittle movies and trying to view disorganized slides and photographs. Watch your memories unfold with the convenience of watching TV, or now, viewing them on your multi-media computer! Even other members of your family can enjoy the seldom seen family movies or slides with their own low cost DVD, Hi Def DVD, or Photo CD.

**It Is So Easy...**

Just ask Custom Video for details on how simple it is to put your movies, slides, and photographs onto your own custom video production. You can even use your own titles, special background music, and have low cost copies for family and friends.
